■ **Bronze casting ,bronze casting foundry , brass fittings, bronze threaded fittings, Bronze fittings manufacturers suppliers India, Bronze machined castings**

Our range of **Brass Castings** is manufactured by using premium grade Brass and strictly complies with the global standards of the industry. Due to this, our range is highly durable and has higher temperature applications. **Brass Castings** offered by us are widely used to heat dies and extrude.

Some of the salient attributes of **Brass Castings** are as follows:

- Accurate chemical composition
- High tensile strength
- Corrosion resistance

Brass Casting

Copper Castings

We offer superior range of **Copper Castings**. It is designed in compliance with the global standards of the industry. Our expertise in the industry is supporting us in offering the facility of customization to our customers according to their industry specific requirements such as type of metal, size and others. Copper Castings are used in many applications such as gears, fittings, valve bodies, bearings and in many applications.

Salient features:

- Durable
- Corrosion resistance
- Optimum tensile strength

We design and manufacture superior range of **Aluminum Bronze Castings** to meet the requirements to diverse sectors. To meet international standards, it is certified for physical and chemical composition through comprehensive checks and testing procedure.

It is manufactured by molding process that involves:

- Hand molding
- Machine molding
- Pneumatic M/C molding

The moldings are offered in green sand, shell and CO2 moldings.

Aluminium Bronze Castings

Gunmetal Castings

We offer premium range of **Gunmetal Castings**. It is processed by using molasis sand molding. We use qualitative raw material and rigorously adhere to the global standards of the industry to process high quality **Gunmetal Castings**. To cater to the demands of different industries, we also have industry expertise to offer our range of **Gunmetal Castings** in accordance with the specific requirements of the industry such as shape, size and any other specifications.

Some of the salient features of our range of **Gunmetal Casting** are as follows:

- Corrosion resistance
- High tensile strength
- Dimensionally accurate
- Accurate chemical and physical composition

Size: 1750 mm Outer Dia

Phosphorus Bronze Castings

We are manufacturer of

Phosphorus Bronze Castings, Our range strictly adhere to the international standards of the industry. Owing to this, it is well received in the industry circle for construction and reliability.

Our range of Phosphorus Bronze Casting is processed by following methods:

- Sand Casting: We follow green sand and air set process in Sand Casting.

Salient features of Phosphorus Bronze Castings:

- Durable
- Excellent finish
- High performance

Sand Castings & Centrifugal Castings

The sand castings & centrifugal castings we offer have a dense grain structure and are free from porosity. Our expertise lies in making liners, sleeves, wear ring materials and other centrifugal part out of **ASTM 660**.
